Revised July 20
COMPUTER INFORMATION SERVICES
Associate in Applied Science in Business Management

The Associate in Applied Science in Business Management, Computer Information Services Option Program is a two-year program designed to prepare students for jobs that require general management skills as well as those specific to computer services. This program option is composed of general education courses, business management courses, and a strong core of computer science studies. The program has been designed for skill development and therefore does not transfer as easily into a baccalaureate business or computer science program. Students planning to pursue a bachelor’s degree in computer science should enroll in the A.A. Liberal Arts, Computer and Information Sciences Option program.

Elective Categories:

Students may select courses from any of the disciplines listed below each category to full-fill any remaining degree requirements above and beyond their General Education Requirements.
