

# WCCC Library: MLA Citation Format Guide

**NOTE:** This is an abbreviated style guide, based on the most frequently used types of research source material. A more detailed explanation of source documentation can be found in the MLA Handbook, available on Reserve at the circulation desk in the library.

Remember:

1. The Works Cited list must be on a separate page from the text of your paper (use page break in Word).
2. Alphabetize all types of sources in one list by the author's last name or first word of the citation (other than **the, a, or an**).
3. Double space the Works Cited page and use a hanging indent for all entries
4. Include the URL for electronic sources, but **do not include the http:// part of the URL and remove the hyperlink.**
5. For in-text citations, if an author is not given use the first item that is listed on your Works Cited entry (e.g. book title, article title, web page title).
6. For in-text citations, place the parenthetical citation at the end of the sentence(s) where the source is used. Place the sentence's end punctuation after the final parenthesis.
