

Course Master Syllabus

CATALOG DESCRIPTION: This course addresses computer applications, standard algorithms, programming methodology, and applications. Files and records, pointer data types, elementary sorting and searching, and information storage and retrieval are covered.

PREREQUISITE(S):	CSC 121 – Programming I			
COREQUISITE(S):	None			
CREDITS:	3	HOURS:	2 lecture 2 lab	
REQUIRED TEXT(S):	MindTap Programming for Farrell's Java Programming, 9th edition			

CENGAGE COURSE CODE:

SUPPLEMENTAL MATERIALS:

INSTRUCTOR INFORMATION:

OFFICE HOURS:

Course Master Syllabus

CORE COMPETENCIES: The following core competencies are embedded in this curriculum: Apply appropriate mathematical and statistical concepts and operations to interpret data to solve problems; Use scientific method of inquiry, through the acquisition of scientific knowledge; Use computer systems or other appropriate forms of technology to achieve educational and personal goals; Understand ethical issues and situations; Address an information need by locating, evaluation and effectively using information.

LEARNING ASSESSMENT				
Student Learning Outcomes:	Suggested Means of Assessment:			
Describe and utilize functions, pointers, and	Quizzes			
control structures				
Utilize and explain the use of classes,	Quizzes, Lab Assignments			
instantiation, methods, constructors, and				
destructors				
Identify/describe the 4 principles of Object	Quizzes, Lab Assignments/Projects			
Oriented Programming; encapsulation, data				
abstraction, polymorphism and inheritance				
Utilize a text editor/IDE to write and compile	Lab Assignments/Projects			
advanced programs, including the use of				
object-oriented techniques to access and store				
files				
Employ additional logic and control program \tilde{a}	Lab Assignments/Projects			
flow				
Apply variables, communicate with different	Lab Assignments/Projects			
date types and create advanced arrays				
GRADING SYSTEM:	C+ = 77 < 80			
A = 90 < 100	C = 70 < 77			
B+ = $87 < 90$	D = 60 < 70			
B = 80 < 87	F = Below 60			

DISABILITY SERVICES STATEMENT: Warren County Community College is committed to providing all students equal access to learning opportunities. Student Services is the campus office that works with students who have disabilities to provide and/or arrange reasonable accommodations. Students who have, or think they may have, a disability (e.g. mental health, learning, vision, hearing, physical or systemic), are invited to contact Student Services to arrange a confidential discussion at (908) 835-2300 or by email at <u>StudentServices@warren.edu</u> as soon as possible. Students registered for Disability Services with Student Services, who have requested accommodations for the current semester will be provided with an electronic letter detailing individual accommodations and are encouraged to contact the instructor early in the semester to discuss accommodations outlined in their letter.

INSTRUCTIONAL SUPPORT CENTER: The Instructional Support Center (ISC), located in Room 105 across from the library, provides academic support at no cost to WCCC students and is available for courses in which they are currently enrolled. The ISC is staffed with trained professional and peer tutors who are ready to help you understand and succeed. For scheduling or further information, visit the ISC in person, online at <u>http://www.warren.edu/tutoring/</u> or by telephone at (908)835-2354.

STATEMENT AND POLICY ON CHEATING, PLAGIARISM AND ACADEMIC

DISHONESTY: Students are required to perform all the work specified by the instructor and are responsible for the content and integrity of all academic work submitted. A violation of academic integrity will occur if a student: (1) knowingly represents work of others as one's own, (2) uses or obtains unauthorized assistance in any academic work, (3) gives fraudulent assistance to another student, or (4) furnishes false information or other misuse of college documents.

In cases of suspected violation of academic integrity, the incident is to be reported to the Office of Academics. A student found guilty of violating the rule of academic integrity by the Vice President of Academics will be considered to have failed in personal obligation to the College; such failure will be subject to disciplinary action by the College. Unless otherwise notified, the instructor will allow students who are pending disciplinary action to attend class.

REQUIRED FORMAT FOR RESEARCH PAPERS: Research papers written for any Warren County Community College class must conform to the required documentation style. Papers written for humanities (and some social science) classes will follow the most recent edition of the Modern Language Association (MLA) in-text citation and bibliographic methods. Social science and science papers will require the use of the most recent edition of the American Psychological Association (APA) in-text citation and bibliographic methods.

Please consult with your instructor regarding the correct documentation style to use in his/her class.

ATTENDANCE POLICY: Students are expected to attend all class sessions of courses in which they are enrolled and are responsible for all material presented in class and all homework assignments.

Grades are based on the quality of work completed in meeting the requirements for a particular course, as stated in the course syllabus and catalog description.

Excessive absence may be considered sufficient cause for dismissal from class by an instructor or other appropriate college staff member. Any decision to exclude a student from class or the College due to excessive absence shall be subject to review by the President in accordance with established procedures. Students who have not attended class are not entitled to a refund of tuition.

WCCC HAYTAIAN & MAIER LIBRARY

Text: 908-652-4445

Email: lstoll@warren.edu

http://warren.libguides.com

Please see the library's website above for current semester hours.

The WCCC Library offers a wide range of services to students specific to the information literacy goals of the College which includes suggesting research strategies, facilitating the use of both digital and print resources, as well as assisting students with citations to avoid plagiarism.

The library also serves as the College's computer space, with computers for students to use when the library is open. Students also have free, unlimited printing from the College's computers, as well as space to study.

The library is where students can get their college student ID cards. All students are required to get a student ID card and carry it while on campus for security purposes. To get a student ID card, you must bring another form of ID to the library. You may also be asked to bring a printed copy of your current class schedule. You can get a student ID card any time that the library is open. These cards do not expire and can be used for your duration at WCCC.

Additionally, the library participates in a national inter-library loan program which is available free to all students and faculty. You can submit ILL requests by emailing the librarian or by stopping by the library's circulation desk.

TOP	ICAL OUTLINE:	
I.	Creating Java Programs	
	a. Introduction to Procedural and OO programming, classes, objects,	
II.	inheritance and polymorphism	
	a. Saving, compiling, and viewing console output of java program	
	b. Adding comments and organizing code	
	c. Introduction to GUI application	
III.	Using Data	
	a. Introduction to variable data types (string, boolean, floating-point, int)	
	b. Scanner and JOptionPane class for GUI	
	c. Java arithmetic	
	d. Data type conversion	
IV.	Using Methods, Classes, and Objects	
	a. Creating, understanding, and using methods and classes	
	b. Declaring objects and using their methods	
	c. Introduction to using constructors	
V.	More Object Concepts	
	a. Understanding blocks and scope	

CSC 122 Programming II

Course Master Syllabus

	b. Overloading methods and constructors		
VI.	CSC 122 Programming II		
VII.	Course Master Syllabus		
	a. Importing helpful classes		
VIII.	Making Decisions		
	a. If/else blocks		
	b. Logic of AND, OR, NOT		
	c. Switch statements		
IX.	Looping		
	a. Common Errors, arithmetic shortcuts and optimum performance using		
Χ.	While and For loops		
	a. do while loops		
	b. Nested loops		
XI.	Characters, Strings, and the String Builder		
	a. Character and string methods		
	b. Declaring and Comparing String objects		
	c. Introduction to String Builder class		
XII.	Arrays		
	a. Declaring arrays		
	b. Searching arrays		
	c. Using arrays in loops and methods		
	d. Sorting arrays (simple sort, bubble sort, insertion sort)		
	e. Using multidimensional arrays		
XIII.	Inheritance		
	a. Using UML to visualize inheritance		
	b. Parent/child classes		
	c. Using constructors and methods during inheritance		
	d. Abstract Classes		
VIN7	e. Using Inheritance to achieve good software design		
XIV.	Exception Handling		
	a. Recognize and fix problems with exceptions		
	b. Exceptions in methods		
VV	c. Creating an exception class		
XV.	File Input and Output		
	a. Understanding file system management and using pathnames		
	b. Using Java's IO class a Reading computing and then writing files		
VVI	c. Reading, computing, and then writing files		
XVI.	Swing Components a. JFrame, JLabel, JButtons, JTextFields		
	b. Event driven programming		
VII.	JavaFX and Scene Builder		
• V 11.	a. Using Java for GUI applications		
	b. Connection to CSS		
	c. Animation using JavaFX		
	c. Ammauon using Javai A
