Independent Auditors' Report

The Honorable Chairman and
Members of the Board of Trustees
Warren County Community College
Washington, New Jersey

Report on the Financial Statements

We have audited the accompanying basic financial statements of the Warren County Community College (the "College") a component unit of the County of Warren, as of and for the fiscal years ended June 30, 2021 and 2020, and the related notes to the financial statements, which collectively comprise the College's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and audit requirements as prescribed by the Office of Management and Budget, Department of the Treasury, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the College's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

The Honorable Chairman and
Members of the Board of Trustees
Warren County Community College

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Warren County Community College, in the County of Warren, as of June 30, 2021 and 2020, and the respective changes in financial position, and cash flows thereof for the fiscal years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, which follows this report, and the pension and post-employment benefits schedules and the related notes be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the College's basic financial statements. The accompanying schedules of expenditures of federal and state awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*; and New Jersey's OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying schedules of expenditures of federal and state awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules of expenditures of federal and state awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Honorable Chairman and
Members of the Board of Trustees
Warren County Community College

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 21, 2022 on our consideration of the College's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the College's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control over financial reporting and compliance.

FY21 MANAGEMENT DISCUSSION AND ANALYSIS

This Management Discussion and Analysis (MD & A) of Warren County Community College's ("College" or "WCCC") financial performance provides an overall review of the College's financial activities for the fiscal year ending June 30, 2021. The intent of this discussion and analysis is to look at the College's financial performance as a whole; readers also should review the financial statements, the notes to the financial statements and any management recommendations to enhance their understanding of the College's financial performance. This document is prepared by WCCC and represents management's interpretation of the financial data.

Overview of the Financial Statements

The College's audit is prepared under the standards prescribed by the Governmental Accounting Standards Board (GASB), which sets guidelines for financial reports prepared for public entities. The financial statements prescribed by GASB incorporate three statements:

- Statement of Net Position
- Statement of Revenues, Expenses and Changes in Net Position
- Statement of Cash Flows

These statements, which follow in the presentation, demonstrate the net value of assets and the results of the College's operations, respectively, on a college-wide basis. All statements are prepared using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid. The audit performed by Nisivoccia LLP also includes a series of notes to accompany the financial data, and an audit of federal awards and state financial assistance, which is required by both federal and state entities.

Net Pension Liabilities and OPEB Costs

Beginning in FY2015, GASB 68 required public entities to reflect future pension liabilities in its financial statements. In addition GASB 75 went into effect in FY2018. This required institutions to record the post employment benefit expense for WCCC employees.

Warren County Community College's employees participate in either the Alternate Benefits Program (ABP), which is a defined contribution plan and therefore has no future pension obligations, or the Public Employees Retirement System (PERS), which is a defined benefit plan. WCCC makes annual contributions for its PERS employees in accordance with actuarial estimates prepared for the NJ Division of Pensions and Benefits. In order to reflect potential future pension liabilities in the College's financial statements, the NJ Division of Pensions and Benefits has provided public entities with data on these liabilities.

The State of NJ, rather than WCCC, is responsible for funding both OPEB and Pension expenses. For purposes of more effectively reflecting the College's financial position, this Management Discussion and Analysis will exclude these expenses and liabilities in the discussion of the three main components of the financial report.

Statement of Net Position: College Funds

The Statement of Net Position includes assets, liabilities, deferred inflows and outflows, and the resulting net position of the College. WCCC's assets are classified as either current or non-current (capital) assets. Liabilities represent future commitments that the College has made that must be recognized as a future expense. These liabilities can be either short-term or long-term.

The College's net position is derived by calculating the difference between assets/deferred outflows and liabilities/deferred in-flows. The net position indicates both capital assets and fund assets. The WCCC Foundation holds a donated asset of real estate, the Foundation's net position represent fund assets only.

The chart below shows total and net position for the College (exclusive of its component unit, the WCCC Foundation). The overall College net position as of June 30, 2021 exclusive of the state GASB 68 liabilities, was \$24.1 million. The overall College net position as of June 30, 2021, inclusive of the GASB liabilities was \$21.4 million.

Statement of Net Position: Excluding State GASB 68 (Rounded \$000)

Total Assets	<u>FY21</u>	<u>FY20</u>	<u>Change</u>
Current Assets	7,240	6,854	386
Capital Assets, net	<u>18,141</u>	<u>18,736</u>	<u>(595)</u>
Total Assets	25,381	25,591	(209)
Less Liabilities:

Total Net Position	<u>24,056</u>	<u>23,300</u>	<u>756</u>

In order to understand the College's financial position, it is important to review each category of the net position statement: current assets, capital assets, liabilities, deferred inflows, deferred outflows and net position. The above chart does not include the net pension liabilities related to College employees, which are required to be reported on a GAAP basis. These liabilities are the

responsibility of the State of NJ. The June 30, 2020 net pension liability attributed to WCCC current and former employees was \$2,923,077. Had the net pension and the related deferred inflows and outflows for pensions been included in the chart above, the total net position would have reduced the net position by \$4,473,120.

Current Assets

Current assets include cash and cash equivalents, accounts receivable, inventory and prepaid expenses. As the chart on the prior page indicates, the College's current assets increased to over \$7.24 million, a \$386 thousand increase over the FY21 level. This change represents an increase in cash due to Federal HEERF funds (referred hereafter as "COVID 19") funds.

Capital Assets

Capital assets include facilities, building improvements, computers, furnishings and equipment and fixtures. The College's capital assets were just over \$18.1 million by the end of FY21, representing a slight decrease in net capital assets.

The change in capital assets by category is shown below.

Capital Assets (in \$000)			
<u>Asset Type</u>	<u>FY21</u>	<u>FY20</u>	<u>1 Year Change</u>
Computers & Equipment	2,416	2,255	161
Furniture & Fixtures	1,715	1,715	5
Building Improvements	3,917	3,674	243
Building	<u>23,455</u>	<u>23,455</u>	<u>0</u>
Total	31,503	31,099	404
Less Accumulated Depreciation	<u>(13,362)</u>	<u>(12,363)</u>	<u>(999)</u>
Net Capital Assets	<u>18,141</u>	<u>18,736</u>	<u>(595)</u>

The change in computers and equipment primarily reflects the refresh of four computer classrooms undertaken the summer of 2021. The increase in building improvements reflects the Community Trail project, which was completed in September 2021. The book value of capital assets is reduced annually by depreciation, which differs depending on the useful life of assets. The depreciation for FY21 was just under \$1 million.

The value of capital assets is important for a number of institutions as they can be leveraged for borrowing purposes (issuance of debt). However, in the case of WCCC, under state statute the College is unable to issue bond funds. Bonds for WCCC may be issued by state or county governments and certain public authorities.

Current Liabilities

Also displayed in the *Statement of Net Position* are liabilities. Liabilities may be current or non-current (reflecting commitments to be realized in future years). Current liabilities include upcoming salary and vendor payments for services already incurred during the fiscal year, as well as unearned tuition and other revenue and an accrual to cover earned employee vacation time. Current liabilities were \$1.2 million at the end of FY21, over a \$1.0 million decrease over the FY20 liabilities. This decrease reflects the completion of two items from FY20 where funds were set aside but not yet spent (HEERF funds expended and the replacement of the HVAC units completed in summer 2020). The liability for employee vacation accrual increased by just over \$19,000. This increase reflects additional unspent vacation hours as of June 30, 2021, due to travel restrictions/stay at home orders due to COVID 19. The College has offered employees more flexibility in FY22 to use accrued vacation time.

Long-Term Liabilities

The long-term liability of the College is the sick time and is actually an expense of the College. This reflects potential sick-leave payouts for faculty members. WCCC offers a sick leave payout of up to \$8,000 for faculty who have served for ten years in a full-time position and have provided one year's advance notice of retirement. The total set aside for this liability for FY21 is \$112,000, representing the maximum allocation available for eligible employees.

Other long term liabilities reflected on the financial statements include the State of New Jersey net pension liability. In order to indicate the College's financial position, this MD & A statement discusses the State of NJ liabilities separately.

Net Position

The College's net position is total assets and deferred outflows less total liabilities and total deferred inflows. Net position includes capital assets, such as buildings and equipment, as well as non-capital assets (such as cash, investments, pre-payments and receivables). Non-capital net position is classified on the next page as "restricted," or "unrestricted." Note the data and this section does not include the NJ Pension liability, which will be discussed in a later section, or WCCC Foundation funds.

The College's net position in FY21 increased, in large part due to the receipt of additional COVID 19 funds. The federal government has allowed campuses to reimburse themselves for not only expenses, but also for lost revenue during this period. In addition, state COVID-19 funds were received in FY21, to reimburse the college for expenses made since the pandemic was declared on March 3, 2020. The net effect of these changes has been to allow the college to reimburse itself for FY20 operating revenue loss and additional costs.

Unrestricted and Restricted Net Position (Rounded \$000s)

Unrestricted net position pertain to the aggregate of residual funds that are neither restricted nor designated at this time. Note that in the combined Statement of Net Position, the categories of designated and undesignated are combined together as "Unrestricted." Unrestricted funds as of June 30, 2021 increased slightly to \$1,207,680, representing 13% of FY21 expenses (excluding depreciation). This is slightly above the Board's annual goal of maintaining a set-aside of approximately 10% to 12% of expenses for contingency needs. This level is also in accordance with the expectations of the College's accreditor, the Middle State's Commission on Higher Education.

Designated funds represent resources allocated by the Board of Trustees for specific projects. Designated funds as of June 30, 2021 were just over \$4.6 million, an increase of \$1.3 million. Of this total, \$1.1 million was for new projects. These include matching funds for the \$1.6 million Securing our Children's Future Bond Act and funds for future recreation fields on lands previously donated by the country. The college also anticipates several smaller projects (such robotics equipment, furnishing replacements and the renewal of the original college restrooms).

The final component of net position is *restricted net position*. The funds in this category represent resources held by the College on behalf of student clubs and organizations and the WWII &

Holocaust Grant. There was no change in this category as student clubs were inactive due to COVID-19.

Statement of Net Position: WCCC Foundation

The WCCC Foundation (“Foundation”) is considered a component unit of WCCC as the College’s Board approves Foundation Board members and College employees oversee the operations of the Foundation. The Statement of Net Position for the Foundation is shown below.

	<u>Statement of Net Position-WCCC Foundation</u>		
	<u>FY21</u>	<u>FY20</u>	<u>Change</u>
Total Assets	1,915	1,138	777
Liabilities	<u>17</u>	<u>18</u>	<u>(1)</u>

Unrestricted	1,241	615	626
Restricted	<u>657</u>	<u>505</u>	<u>152</u>
Total Net Position	1,898	1,120	778

From FY20 to FY21, the net position of the Foundation increased by \$778,088. Most of this increase was in restricted contributions towards the Community Trail, which serves the Warren County community and links Warren County Tech to the College via a series of walking paths.

Restricted funds include both funds that have been designated and funds restricted by endowment agreements. The remaining funds are unrestricted.

Statement of Revenues, Expenses and Change in Net Position: College Funds

The next statement in the financial report is the Statement of Revenues, Expenses and Changes in Net Position (SRECNP). The SRECNP provides information about the College’s revenues and expenses to explain key changes in the College’s financial position.

The SRECNP displays both operating and non-operating revenues. WCCC’s operating revenues primarily are student revenues (tuition and fees) and government grants (primarily financial aid). Non-operating revenues comprise state and local appropriations, including capital appropriations.

The SRECNP expenses for College funds (excluding Foundation and pension expenses) are shown on the next page. Note that expenses include depreciation, which is not an operating cost. Depreciation is recorded to indicate the potential aging of capital facilities (equipment, furniture and fixtures, building improvements and buildings). Also, expenses do not include funds that have been “capitalized,” meaning that they have been moved to capital assets.

Change in Net Position	756	133	623	213.48%

Operating Revenues

Total FY21 College operating revenues were 22.1% higher than the prior year revenues, with variations in several categories, primarily grant funds.

Tuition and Fees

Tuition and fees were significantly reduced in FY21. Note that the SRECNP displays tuition and fees by funding source. This means that Tuition and fee charges paid by state and federal financial aid grant funds are categorized under state or federal grants. This means that if a student receives financial aid to cover tuition and fees, the revenue is recorded as state or federal grant revenues, rather than tuition and fees. The next display shows total (gross) tuition and fee revenues for FY21 vs. FY20.

Change in Tuition Revenues (Rounded \$000)	<u>FY21</u>	<u>FY20</u>	<u>1 Year Change</u>	<u>Percentage Change</u>
Credit Tuition and Fees	3,495	4,056	(561)	-4.7%
Non Credit-Tuition and Fees	126	274	(149)	-54.2%
Customized Training	<u>24</u>	<u>26</u>	<u>(2)</u>	<u>-17.1%</u>
Total	4,356	3,644	(712)	-16.3%

WCCC did not increase its tuition and fees for FY21, so the revenue change in this category reflects a reduction in enrollments, which was experienced throughout higher education, but especially at community colleges. During FY21, most classes at WCCC were held virtually (either in a remote or a distance education format) due to COVID 19. The steep decline in non-credit revenues and the lack of customized training revenues reflect the inability to offer many courses due to the pandemic restrictions (particularly any short-term health career programs). Because of the new variants of COVID, it is likely that WCCC will once again face severe challenges in Continuing Education and Customized Training.

Other Operating Revenues

Fortunately, for WCCC, the decrease in tuition and fee revenues were offset by several key federal grant programs. During FY21 and FY22, the College is benefitting from the allocation federal COVID grants (including those passed down through the state and those distributed directly to the College). These revenues supported both the students and the institution. As a result, *Federal grants and contracts* reflects a net increase of \$1.4 million in FY21. Most of this is one-time revenue that will disappear by FY23.

State grant and contracts increased slightly, reflecting some increases and decreases in state grants. There was a decrease in state financial aid (related largely to the enrollment decrease). However, these decreases were offset by some COVID relief funds.

Other revenues primarily reflect rental income.

Non-Operating Revenues

State and county appropriations, along with investment income, are classified as non-operating revenue. As a public county college, WCCC relies on these annual subsidies to meet its operating needs, as state and county funds normally account for nearly 45% of the College's unrestricted revenues. Because of federal COVID funds received in FY21, which inflated revenues and expenses, the public appropriations accounted for 40% of revenues.

The *County appropriation* was \$2,280,963 in FY21. The .9% increase from the prior year reflects a 2020 increase in operating aid that covered part of FY21.

The *State appropriation* of \$2,057,963 represents a 3.5% increase, however, it is still below the pre-pandemic level.

State Alternate Benefit Funding (ABP) is a reimbursement for state pension contributions for eligible employees. These reimbursements are based on actual pension payments made by the College on behalf of its educational employees into the ABP program.

Miscellaneous revenue includes testing fees, miscellaneous facility rental income and investment income. FY20's revenue included a one-time donation from the WCCC Foundation, which explains the decrease in FY21.

Capital Grants reflects the balance of funds for the GO Bond project. These funds were used to construct the Building Annex.

Operating Expenses by Functional Spending Categories

Expenses related to the operation of the College can be displayed by the functional categories unique to college and universities. The chart below shows expense by functional categories for both FY21 and FY20. These expenses have been recorded after capitalization, which means that the capital expenses have been moved to capital assets. This presentation allows us to compare operating expenses. Total FY21 expenses (exclusive of the NJ net pension liability) decreased by 2% from FY20 to FY21.

Expenses by Function (\$000)

<u>Category</u>	<u>FY21</u>	<u>FY20</u>	<u>Change</u>	<u>% Change</u>
Instruction	3,160	3,377	(217)	-6%
Institutional Support	1,868	1,999	(131)	-7%
Public Service	406	474	(68)	-14%
Academic Support	1,261	1,192	69	6%
Physical Plant	1,018	1,109	(91)	-8%
Student Support	827	910	(83)	-9%
Capital Expense	4	36	(32)	-88%
Scholarships/Aid	590	178	412	232%
Depreciation/Deletions	<u>1,041</u>	<u>1,074</u>	<u>(33)</u>	<u>-3%</u>
Total	10,176	10,349	(173)	-2%

Many of the changes in expenses in FY21 were related to a change in operations due to the COVID-19 pandemic. **Instruction** expenses declined by 6% because of fewer course credit course sections, but more importantly, the cessation of in-person continuing education courses. This also explains the decrease in **Public Service** activities, which includes continuing education operational activities. Most other activities of the college had reduced expenses, also related to COVID-19, including **Institutional Support**, **Student Services** and **Physical Plant**.

Conversely, in FY21, there was a large increase in **Scholarships/Financial assistance**. This reflects funds paid directly to students for COVID relief assistance. These expenses increased for the Spring 2021 semester as the federal government loosened the restrictions on the use of COVID-19 funds for students and institutions.

Note that data shown above does not include expenses required for GASB 68 (Pension) or GASB 75 (Other Post-Employment Benefits or OPEB) paid by the State of New Jersey. These are included in the official schedules included in this Audit report. Because of the size of the state expenses, they significantly distort the revenues and expenses of the College.

Expenses by Natural Spending Categories

Expenses also can be categorized by “natural” groupings that reflect spending type. These expenses for College funds (excluding State Pension Funds and the Foundation) are shown below. This perhaps more clearly shows the impact of expenditure changes for FY21.

Expenses by Natural Category (Rounded \$000)				
<u>Category</u>	<u>FY21</u>	<u>FY20</u>	<u>Change</u>	<u>% Change</u>
Employee Salaries	4,378	4,727	(348)	-7%
Employee Fringe Benefits	<u>1,550</u>	<u>1,705</u>	<u>(155)</u>	<u>-9%</u>
Employee Salaries & Benefits	5,928	6,432	(504)	-8%
Non-Salaries				
<i>Materials and Supplies</i>	635	644	(10)	-1%
<i>Services</i>	399	445	(46)	-10%
<i>Computing/Equipment</i>	793	634	159	25%
<i>Utilities/Ins./Maintenance.</i>	757	900	(143)	-16%
<i>Scholarships</i>	590	178	412	231%
<i>Other</i>	<u>29</u>	<u>31</u>	<u>(2)</u>	<u>-8%</u>
Subtotal, Non-Salaries	3,203	2,834	369	13%
Total, Operating Expenses	9,131	9,265	(135)	-1%
Capital/Depreciation	1,045	1,084	(39)	-4%
Total Expenses	10,176	10,349	(173)	-2%

Reviewing the expenses by category more clearly shows the impact of COVID-19 on FY21 expenses. **Employee Salaries** declined in FY21, primarily reflecting a drop in adjunct expenses with fewer class sections (as reflected also in tuition and fee revenue reductions). The reduction in Continuing Education offerings is also reflected in this category. During FY21, there was a net reduction of two positions due to retirement and the change in computer operations.

Employee Fringe Benefits not only reflect fewer adjunct and Continuing Education instructors due to COVID-19 restrictions and enrollment reductions, but also some changes in health benefit plans and options for employees through the State Health Benefit Program.

Another area of decrease was in **Utilities/Insurance and Maintenance**. Given the level of remote services in FY21, the College significantly reduced utility costs as well as outsourced security and cleaning costs. These costs have returned to a normal level in FY22.

As noted under Functional Expenses, the largest category of increase related to student financial assistance. This reflects pandemic relief funds that the College has distributed to students. Computer expenses also increased significantly in FY21. Part of this related to the College's

transition to cloud-based services for its ERP system (Jenzabar) and the procurement of new laptops to serve students and staff during the pandemic.

Other areas had more minor expense changes. For example, the College reduced expenses during COVID for certain office, paper and copier supplies, but increased expenses for cleaning and COVID-related supplies. Certain service expenses were lower due to limitations on travel and fewer legal costs.¹

Statement of Revenues and Expenses: WCCC Foundation

Revenues and expenses for the WCCC Foundation, a component unit within the College's financial statements, are shown below.

Statement of Revenues, Expense and Net Position (Foundation) (Rounded \$000)

	<u>FY21</u>	<u>FY20</u>	<u>Change</u>
Foundation Revenues			
Fundraising	10	62	(52)
Other	<u>827</u>	<u>185</u>	<u>642</u>
Total Revenues	837	247	590
Foundation Expenses	59	275	(216)
Increase/(Decrease) in Net Position	778	(28)	

Given the COVID-19 pandemic, the College hosted only one virtual fundraising event with limited expenses in FY21. **Other** revenue primarily represents a \$675,000 donation for the Community Trail, which is a walking path around the College and connecting to the Warren County Technical School. The funds received for this donation have been transferred to the College to reimburse WCCC for this capital project in FY22. **Other** also includes unrealized gains for FY21, which totaled \$125,476. The balance of revenues were smaller donations and investment/dividend income.

Foundation Expenses primarily represent the donation of training and software to the UAS program. In FY20, the Foundation made a one-time donation to the College for the Hall of Fame addition, which is reflected in that year's expenses.

Statement of Cash Flows

The third financial statement included in the audit is the Statement of Cash Flows. This statement documents the actual outlay and receipt of cash and cash equivalents of the College and reconciles the decreases in cash in accordance with GASB reporting. As this schedule notes, the overall cash position was \$7,527,641 at the close of FY21. This is a significant increase from the cash position of \$6,423,928 at the end of FY20.

¹ By statute, WCCC is required to report annually on legal expenses and on any expenses for public relations firms. In FY21, legal expenses were \$21,503 while public relations expenses were \$11,875.

The College's cash position as of June 30, 2021 was \$6,749,126, an increase of \$467,942 from the FY20 level. Most of this increase represents the reimbursement from federal COVID grants for pandemic relief costs or revenue loss.

The Foundation's cash and cash equivalents position stood at \$763,400 at the end of FY21. This is a significant increase from the \$127,234 at the close of FY20 and represents cash received to support the Community Trail project. These funds have since been transferred to the College to reimburse for the project costs, primarily incurred in FY22.

Long-Term (State) Liabilities

As noted previously, while two Governmental Accounting Standards Board (GASB) pronouncements requires entities to report the net pension liability for their employees along with Other Post Employment Benefits (OPEB), these these expenses are not the responsibility of the College.

In New Jersey, certain employees participate in the PERS pension system, which is a defined benefit plan. The New Jersey Division of Pensions has provided actuarial estimates, which show that the net pension liability for current WCCC employees and retirees. Eligible retirees receive OPEB benefits through PERS. Eligible Retirees through the Alternate Benefits Program (a defined contribution plan) receive OPEB benefits through an annual appropriation in the State budget. The NJ actuarial estimates for these costs are also shown in the financial statements. The impact of these liabilities are shown on the financial statements along with the related deferred inflows and outflows. Pension and OPEB liabilities were \$2,923,077 and \$10,828,197 respectively in FY21. They are not recorded in the College's accounting system and are shown for GASB requirements only.

Future Developments

The final component of the MD & A is a discussion of future developments. This section is intended to focus on prospective issues that may affect the College's financial position in future years. There are several items will may have a major impact on WCCC over the next year.

Impacts of COVID 19/Enrollment

In spring, 2020, the College converted completely to remote and distance education. This situation continued through most of FY21. The College began slowly reopening in Summer 2021 and hosted the majority of its classes in person in fall 2021. With the pandemic continuing, the College continues to promote course flexibility, understanding that it may need to pivot to remote or distance education at any point given the different variants and waves of infections.

To support the challenges from the pandemic, WCCC has made various technology enhancements in FY21, including moving its ERP and LMS systems to cloud technology and switching to managed network services via Jenzabar. WCCC purchased licenses through spring 2022 for synchronous meeting hardware and software to allow both classroom and office

communications/meetings. The College also continues to purchase PPE and numerous products to aid with the sanitizing of the Washington and Phillipsburg facilities. To help students who have limited broadband capabilities at home, the College also expanded its external Wi-Fi to assist students in outdoor and parking areas.

All of these enhancements have been funded through various COVID grants. WCCC has been awarded funds directly by the U.S. Department of Education through the federal HEERF funds provided directly to WCCC or through state grant distributions. These grants will be sufficient to cover all COVID-19 needs through spring 2022. Funds also are available to support emergency student financial needs due to the pandemic. Recent changes have allowed the College to reimburse students for tuition and fee needs in addition to technology and other educational costs.

While COVID's direct costs will be covered through grant funds, WCCC has also had to manage the indirect impact of COVID-19. The virus has affected enrollment at colleges and universities, especially those at the community college level. The switch to remote learning affected the College's enrollment in FY21, especially during the spring term, as students were experiencing "fatigue" from distance/remote learning options. WCCC was one of the few colleges to experience a slight enrollment increase in its credit programs fall 2021. This may reflect the availability of more on-campus offerings.

Two areas that continue to struggle are the College's non-credit and customized training enrollments. Many non-credit offerings require not only in-person instruction, but also clinical learning, especially through smaller sites and long-term care facilities. These sites may be experiencing worker shortages and unable to accommodate students in clinical settings at this time. A similar situation is evident with Customized Training programs. Some employers are either not fully back to work yet or are not in need of new job training at this time. We are hopeful that enrollment in all areas of the College is able to resume more thoroughly during 2022.

Strategic Planning

In the semester of the pandemic (Spring 2020), the College had hoped to resume its strategic planning activities. This effort was deferred when the WCCC had to switch to a completely remote setting. At this time, the College intends to resume its next planning cycle in Spring 2022. This plan is likely to be somewhat different than the initial direction taken in Spring 2020 as a result of changes in the higher education industry since COVID-19. The plan will focus on the following areas as approved by the Board of Trustees:

- True paths to prosperity
- Student experience
- Public support and market expansion
- Community and economic mobility
- College resources
- Facilities renewal

Facilities Renewal and Replacement

Despite COVID-19, several facilities projects have been underway at WCCC. In summer 2020, the College completed the replacement of the original four rooftop units on the Washington campus. As noted previously, the Community Trail project was completed in September 2021.

In 2019, the College completed a renewal and replacement study for both Washington and Phillipsburg facilities. This report identified various projects of high priority for the renewal of campus facilities. During spring 2020, the College had begun the process to bid a roof replacement project in Phillipsburg. However, due to COVID 19, this project was deferred. WCCC hopes to complete this project in summer 2021 as it was the highest priority need identified in the Phillipsburg facility plan.

Securing Our Children's Future Bond

In July, 2021, the College was notified that it had received just under \$1.6 million in Securing Our Children's Future (SOCF) Bond funds through a competitive grant process administered by the New Jersey Secretary of Higher Education's Office. These funds provide both capital and equipment funds for high technology programs and renewal and replacement needs. WCCC will provide a 25% match for these funds. The College will use most of these funds for a new UAS/Robotics lab in the Phillipsburg Education Center (PEC) as well as the roof replacement project at Phillipsburg and additional exterior repairs to the PEC. The new lab will not only augment the College's UAS program, but also allow WCCC to expand further into the Robotics field. At this time, the College is also preparing several federal grant applications to further support this enterprise.

WARREN COUNTY COMMUNITY COLLEGE
NOTES TO FINANCIAL STATEMENTS
FISCAL YEAR ENDED JUNE 30, 2021

Note 1: Organization and Summary of Significant Accounting Policies

Warren County Community College (the "College") is an institution of higher education and a governmental unit and instrumentality of the State of New Jersey as provided by the County College Act, N.J.S.A. 18A:64A.

Basis of Accounting

The Warren County Community College's financial statements are based on all applicable Governmental Accounting Standards Board (GASB) pronouncements.

The College makes a distinction between operating and non-operating revenues and expenses. The College's policy for defining operating activities as reported on the Statement of Revenues, Expenses and Changes in Net Position are those that generally result from exchange transactions such as payments received for providing services and payments made for services or goods received. Nearly all of the College's expenses are from exchange transactions. Certain significant revenue streams relied upon for operations are recorded as non-operating revenues, as defined by GASB including state and county appropriations as well as investment income. Restricted resources are spent and tracked at the discretion of the College within the guidelines of donor restrictions, if any.

Reporting Entity

Governmental Accounting Standards Board ("GASB") Codification Section 2100, "Defining the Financial Reporting Entity" establishes standards to determine whether a governmental component unit should be included in the financial reporting entity. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. In addition, component units can be other organizations for which the nature and significance of their relationship with a primary government are such that exclusion would cause the reporting entity's financial statements to be misleading. The primary government is financially accountable if it appoints a voting majority of the organization's governing body and (1) it is able to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government. A legally separate, tax-exempt organization should be reported as a component unit of a reporting entity if all of the following criteria are met: (1) The economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government, its component units, or its constituents. (2) The primary government, or its component units, is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the separate organization. (3) The economic resources received or held by an individual organization that the specific primary government, or its component units, is entitled to, or has the ability to otherwise access, are significant to that primary government. Accordingly, the Warren County Community College is a component unit of the County of Warren.

Note 1: Organization and Summary of Significant Accounting Policies (Cont'd)

The Warren County College Foundation (the Foundation) is a legally separate, tax-exempt entity that was established exclusively to carry out charitable, educational functions that benefit the College, its students, faculty and staff. The College appoints a voting majority of the Foundation's board. All financial resources of the Foundation are held for the direct benefit of the College or its constituents and the College has the ability to access these significant resources. As a result, the Foundation is considered a component unit of the College and is blended into the financial statements accordingly.

Measurement Focus

The financial statements of the College have been prepared using the total economic resources measurement focus and the accrual basis of accounting, and conform to generally accepted accounting principles in the United States of America as applicable to colleges and universities. For financial reporting purposes, the College utilizes the business-type activities model.

Under the terms of grant and other agreements, the College may fund certain programs by a combination of specific cost-reimbursement grants, categorical block grants, other restricted funds and general revenue. Therefore, when program expenses are incurred, both restricted and unrestricted net position may be available to finance the program. It is the College's policy to first apply cost-reimbursement grants and other restricted resources to such programs, followed by general revenue.

Fund Accounting

In order to ensure observance of limitations and restrictions placed on the use of the resources available to the College, accounts are maintained in accordance with the principles of "fund accounting". This is the procedure by which resources for various purposes are classified for accounting and internal reporting purposes into funds that are in accordance with activities or objectives specified. Separate accounts are maintained for each fund; however, in the accompanying financial statements, funds have been combined in order to comply with the requirements of eliminating internal revenue and expense charges and to meet the financial reporting requirements under accounting principles generally accepted in the United States of America as promulgated by GASB.

Within each fund group, fund balances restricted by outside sources are so indicated and are distinguished from Unrestricted Funds allocated to specific purposes by action of the governing board. Restricted Funds may only be utilized in accordance with the purposes established by the donor or grantor of such funds, and are in contrast with Unrestricted Funds over which the governing board retains full control to use in achieving any of its institutional purposes.

The College uses encumbrance accounting for internal accounting and reporting. Under encumbrance accounting, purchase orders, contract and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation.

The College accounts for its financial transactions through the following separate funds:

Operating Fund – to account for funds which are expendable for any purpose in performing the primary objectives of the College, including tuition and student fees funds.

WARREN COUNTY COMMUNITY COLLEGE
NOTES TO FINANCIAL STATEMENTS
FISCAL YEAR ENDED JUNE 30, 2021
(Continued)

Note 1: Summary of Significant Accounting Policies (Cont'd)

Restricted Fund – to account for those funds expendable for operating purposes, but restricted by donors and other outside agencies, as to the specific purposes for which they may be expended.

Accounts included in the Restricted Funds are:

College Funds – to account for state and local grant revenue and expenses as well as student club activities.

Foundation Funds – to account for revenue and expenses of funds for the Warren County Community College Foundation.

Plant Fund – to account for funds expended for property and equipment.

Net Position:

Net position represents the difference between assets, deferred inflows and outflows, and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the College or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The College's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Compensated Absences:

The College accounts for compensated absences (e.g., unused vacation, sick leave) as directed by GASB. A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

College employees are granted varying amounts of vacation and sick leave in accordance with the College's personnel policy or appropriate labor contract. Employees can accrue up to a one-year allocation of vacation leave. Upon termination, employees are paid for accrued vacation. The College's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement, faculty who have worked at the College for 10 or more years shall be paid by the College for up to \$8,000 in unused sick leave in accordance with their contract. The College has established a long-term liability equivalent to the number of faculty with 10 or more years of service.

In the Statement of Net Position, the liabilities whose average maturities are greater than one year should be reported in two components – the amount due within one year and the amount due after one year.

Note 1: Summary of Significant Accounting Policies (Cont'd)

Inventory

The College had no inventory at June 30, 2021 or 2020.

Income Taxes

The College, as an instrumentality of the State of New Jersey and therefore a governmental entity, has determined itself to be a tax-exempt organization and not subject to either federal or state income taxes. The Warren County Community College Foundation, as a 501(c)(3) organization, also is not subject to taxes.

Allowance for Uncollectible Accounts:

The College had an allowance for uncollectible accounts of \$1,010,810 and \$943,841 at June 30, 2021 and 2020, respectively. The allowance for uncollectible accounts consists of all items that are currently 365 days or more overdue as well as 80% of the receivables over 120 days.

Deferred Outflows and Deferred Inflows of Resources:

The Statement of Net Position reports separate sections for deferred outflows of resources and deferred inflows of resources. Deferred outflow of resources, reported after Total Assets, represents a reduction of net position that applies to a future period(s) and will be recognized as an outflow of resources (expense) at that time. Deferred inflows of resources, reported after Total Liabilities, represents an acquisition of net position that applies to a future period(s) and will be recognized as an inflow of resources (revenue) at that time.

Transactions are classified as deferred outflows of resources and deferred inflows of resources only when specifically prescribed by GASB standards. The College is required to report the following as deferred outflows of resources and deferred inflows of resources.

Defined Benefit Pension Plans – The difference between expected (actuarial) and actual experience, changes in actuarial assumptions, net difference between projected (actuarial) and actual earnings on pension plan investments, changes in the College's proportion of expenses and liabilities to the pension as a whole, differences between the College's pension contribution and its proportionate share of contributions, and the College's pension contributions subsequent to the pension valuation measurement date.

Pensions:

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net pension of the Public Employees Retirement System ("PERS") and additions to/deductions from PERS's fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Note 1: Summary of Significant Accounting Policies (Cont'd)

Management Estimates:

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Note 2: Cash, Cash Equivalents, and Investments

Cash and cash equivalents include petty cash, change funds, amounts in deposits, and short-term investments with maturities of three months or less.

The College generally records investments at fair value and records the unrealized gains and losses as part of investment income. Fair value is the price that would be received to sell an investment in an orderly transaction between market participants at the measurement date. The College categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Investments are presented in the financial statements in the aggregate at fair value based on quoted market prices. The College's investments for the years ended June 30, 2021 and 2020 consisted of investments with the New Jersey Cash Management Fund.

GASB requires disclosure of the level of custodial credit risk assumed by the College in its cash, cash equivalents and investments, if those items are uninsured or unregistered. Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution or collateralized with securities held by the pledging financial institution's trust department or agent but not in the depositor-government's name. Custodial credit risk is the risk that in the event of a bank failure, the College's deposits may not be returned.

Interest Rate Risk – In accordance with its formal cash management plan, the College ensures that any deposit or investment matures within the time period that approximates the prospective need for the funds, deposited or invested, so that there is not a risk to the market value of such deposits or investments.

Credit Risk – The College limits its investments to those authorized in its formal cash management plan which are those permitted under state statute as detailed on the following pages.

Custodial Credit Risk – The College does not have a formal policy with respect to custodial credit risk. However, the College ensures that College funds are only deposited in financial institutions in which NJ Colleges are permitted to invest their funds.

Note 2: Cash, Cash Equivalents, and Investments (Cont'd)

New Jersey statutes permit the deposit of public funds in institutions located in New Jersey, which are insured by the Federal Deposit Insurance Corporation (FDIC) or by any other agencies of the United States that insure deposits or the State of New Jersey Cash Management Fund.

New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed insurance limits as follows:

The market value of the collateral must equal 5% of the average daily balance of public funds; and

If the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value equal to 100% of the amount exceeding 75%.

All collateral must be deposited with the Federal Reserve Bank, the Federal Home Loan Bank Board or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

Cash and cash equivalents of the College as of June 30, 2021 consisted of the following:

3. Any obligation that a federal agency or a federal instrumentality has issued in accordance with an act of Congress, which security has a maturity date not greater than 397 days from the date of purchase, provided that such obligation bears a fixed rate of interest not dependent on any index or other external factor;
4. Bonds or other obligations, having a maturity date not more than 397 days from the date of purchase, issued by New Jersey school districts, municipalities, counties, and entities subject to the "Local Authorities Fiscal Control Law", P.L. 1983, c.313 (C.40A:5A-1 et seq.). Other bonds or obligations having a maturity date not more than 397 days from the date of purchase may be approved by the Division of Investment in the Department of the Treasury for investment by local units;
5. Local government investment pools;
6. Deposits with the State of New Jersey Cash Management Fund established pursuant to section 1 of P.L. 1977, c.281 (C.52:18A-90.4); or
7. Agreements for the repurchase of fully collateralized securities if:
 - a. The underlying securities are permitted investments pursuant to items 1 and 3 above;
 - b. the custody of collateral is transferred to a third party;
 - c. the maturity of the agreement is not more than 30 days;
 - d. the underlying securities are purchased through a public depository as defined in statute; and
 - e. a master repurchase agreement providing for the custody and security of collateral is executed.

The Foundation is a 501(c)(3) entity and a component unit of the College. The Foundation may invest in commercial paper, repurchase agreements, treasury bills, certificates of deposit, money market funds, component debt securities, common stocks, preferred stocks, convertible securities, mutual funds, and obligations of the United States Government. Note 3: Student Accounts Receivable

Unpaid student accounts are included in the student accounts receivable, and students are notified of payments due to the College. No provision for delinquent penalty interest is provided. However, any grade or transcript release or future registration will be denied to any student with an unpaid obligation due to the College. The College does pursue collection through an agency, including litigation, if payment is not received during the next semester. During the fiscal year ended June 30, 2021, the College used the services of two collection agents. Fees charged by these agents ranged from 25% to 35% of the amount collected.

As of June 30, 2021 and 2020, accounts receivable from students amounted to \$1,180,493 and \$1,177,670, respectively, excluding the allowance for doubtful accounts in the amount of \$1,010,810 for the fiscal year ending 2021 and \$943,841 in 2020. The allowance for doubtful accounts recorded for the fiscal year ended 2021 amounted to \$1,010,810 as a result of the following provision rates applied to the receivable balance per receivable aging category.

Age in Days	Provision Rate

Note 6: Capital Assets

Capital assets include property, plant equipment, and infrastructure assets, such as roads and sidewalks. Capital assets are defined by the College as assets with an initial unit cost of \$2,500 or more. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets' lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. The County of Warren is responsible for the issuance of bonds and notes for the College's capital expenditures which are financed by bond ordinances. The County is also responsible for the payment of interest on issued bonded debt and the retirement of such obligations. Accordingly, this debt is reported in the financial statements of the County of Warren. Real estate held for sale is recorded at acquisition value. Capital assets were reviewed for impairment.

Capital assets are recorded at cost and consisted of the following, as of June 30, 2021 and 2020:

	Beginning Balance	Additions	Adjustments/ Deletions	Ending Balance

Note 7: Long-term Liabilities

The College's long-term liabilities consist of unused sick leave that is paid upon retirement, and net pension liability. The following table presents the long term liabilities for the fiscal years ended June 30, 2021 and 2020:

	June 30,	
	2021	2020
Compensated Absences Payable - Current Portion	\$ 194,629	\$ 175,560

Net Pension Liability	2,923,077	3,196,980
	<u>\$ 3,229,706</u>	<u>\$ 3,484,540</u>

The only post-retirement benefit offered through the College is a sick leave payout of up to \$8,000 for faculty members meeting criteria contained within the faculty contract, including one year's advance notice of retirement. The Public Employee's Retirement System (PERS) net pension liability of the governmental fund types is recorded in the current and long-term liabilities and will be liquidated by the Unrestricted Fund. The current portion of the net pension liability at June 30, 2021 is \$-0- and the long term portion is \$2,923,077. See Note 8 for further information on the PERS.

Note 8: Pension Plans

Substantially all of the College's employees participate in either the Public Employee's Retirement System (PERS) of New Jersey; and the New Jersey Alternate Benefit Program (ABP).

A. Public Employees' Retirement System (PERS)

Plan Description

The State of New Jersey, Public Employees' Retirement System (PERS) is a cost-sharing multiple-employer defined benefit pension plan administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about the PERS, please refer to the Division's annual financial statements which can be found at www.state.nj.us/treasury/pensions/annual-reports.shtml.

Benefits Provided

The vesting and benefit provisions are set by N.J.S.A. 43:15A. PERS provides retirement, death and disability benefits. All benefits vest after ten years of service. The following represents the membership tiers for PERS:

Tier	Definition
1	Members who were enrolled prior to July 1, 2007
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3	Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5	Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to Tiers 1 and 2 members upon reaching age 60 and to Tier 3 members upon reaching age 62.

Note 8: Pension Plans (Cont'd)

A. Public Employees' Retirement System (PERS) (Cont'd)

Service retirement benefits of 1/60th of final average salary for each year of service credit is available to Tier 4 members upon reaching age 62 and to Tier 5 members upon reaching age 65. Early retirement benefits are available to Tiers 1 and 2 members before reaching age 60, to Tiers 3 and 4 with 25 or more years of service credit and Tier 5 with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a members retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Contributions

The contribution policy for PERS is set by N.J.S.A. 43:15A and requires contributions by active members and contributing members. The local employers' contribution amounts are based on an actuarially determined rate which includes the normal cost and unfunded accrued liability. Chapter 19, P.L. 2009 provided an option for local employers of PERS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in State fiscal year 2009. Such employers will be credited with the full payment and any such amounts will not be included in their unfunded liability. The actuaries will determine the unfunded liability of those retirement systems, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability will be paid by the employer in level annual payments over a period of 15 years, beginning with the payments due in the fiscal year ended June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets. College contributions to PERS amounted to \$196,089 for fiscal year 2021.

The employee contribution rate was 7.50% effective July 1, 2018.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the College reported a liability of \$2,923,077 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2019 which was rolled forward to June 30, 2020. The College's proportion of the net pension liability was based on a projection of the College's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined. At June 30, 2020, the College's proportion was .0179%, which was an increase of .0001% from its proportion measured as of June 30, 2019.

For the fiscal year ended June 30, 2021, the College recognized a pension benefit of \$225,029. At June 30, 2020, the College reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Actuarial Assumptions

The total pension liability for the June 30, 2020 measurement date was determined by an actuarial valuation as of July 1, 2019 which was rolled forward to June 30, 2020. This actuarial valuation used the following actuarial assumptions:

<u>Inflation Rate:</u>	
Price	2.75%
Wage	3.25%
 <u>Salary Increases:</u>	
Through 2026	2.00 – 6.00% based on years of service
Thereafter	3.00 – 7.00% based on years of service
Investment Rate of Return	7.00%

Pre-retirement mortality rates were based on the Pub-2010 General Below-Median Income Employee Mortality Table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and a 99.7% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 127.7% adjustment for males and 117.2% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2020.

The actuarial assumptions used in the July 1, 2019 valuation were based on the results of an actuarial experience study for the period July 1, 2014 to June 30, 2018.

Long Term Expected Rate of Return

In accordance with State statute, the long-term expected rate of return on pension plan investments (7.00% at June 30, 2020) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the Board of Trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in PERS' target asset allocation as of June 30, 2020 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
U.S. Equity	27.00%	7.71%
Non-U.S. Developed Market Equity	13.50%	8.57%
Emerging Markets Equity	5.50%	10.23%
Private Equity	13.00%	11.42%
Real Assets	3.00%	9.73%
Real Estate	8.00%	9.56%
High Yield	2.00%	5.95%
Private Credit	8.00%	7.59%
Investment Grade Credit	8.00%	2.67%
Cash Equivalents	4.00%	0.50%
U.S. Treasuries	5.00%	1.94%
Risk Management Strategies	3.00%	3.40%

Discount Rate

The discount rate used to measure the total pension liability was 7.00% as of June 30, 2020. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers and the nonemployer contributing entity will be based upon 78% of the actuarially determined contributions for the State employer and 100% of actuarially determined contributions for the local employers. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all projected benefit payments to determine the total pension liability.

B. Alternate Benefit Program

Plan Description

The New Jersey Alternate Benefit Program (ABP) is a single-employer, defined contribution pension plan, which was established pursuant to P.L. 1969, c. 242 (N.J.S.A. 18A:66-167 et seq.). The ABP provides retirement, life insurance, long-term disability coverage, and medical benefits to qualified members.

Contributions

The contributions requirements of plan members are determined by State statute. In accordance with N.J.S.A. 18A:66-173, required contributions, calculated on the employee's base pay, are 5% for plan members, and 8% for employers. Plan members may make additional voluntary contributions subject to section 403(b) of the internal revenue code.

Under N.J.S.A 18A:66-174, most employer contributions are made by the State of New Jersey on-behalf of the College. The College is responsible for the employer contributions for non-academic employees.

Plan members direct the investment of contributions to insurance companies and mutual fund companies selected by the New Jersey Division of Pensions' Pension Provider Selector Board. These companies administer plan funds based on alternate benefit contracts with the New Jersey Division of Pensions.

During the fiscal year end June 30, 2021 employee contributions to the plan were \$123,855 and College contributions were \$198,167. The State of New Jersey reimbursed the College a total of \$183,548 for eligible employees.

Note 9: Unearned Revenue

Unearned revenue consists of the unearned portion of tuition and fees for courses offered during the summer and fall, as well as advanced funding for summer courses. All tuition received for courses that were not more than 50% complete as of June 30 are recognized as tuition revenue in the subsequent fiscal year. As of June 30, 2021 and 2020, unearned revenue is a total of \$29,324 and \$714,465, respectively.

Note 10: Economic Dependency

The College receives a substantial amount of its support from federal, state and county governments. A significant reduction in the level of support, if this were to occur, may have an effect on the College's programs and activities.

Note 11: Risk Management

The College maintains commercial insurance coverage for property, liability, student accident and surety bonds. The College is a member of a joint insurance Pool for workers' compensation. Health benefits are provided to employees through the State of New Jersey Health Benefits Plan.

The College is a member of the New Jersey Community College Insurance Pool Worker's Compensation Fund (the "Pool"). The Pool provides the College with workers' compensation insurance. The Pool is a risk-sharing public entity risk pool that is both an insured and self-administered group of school Colleges established for the purpose of providing low-cost insurance coverage for its members in order to keep local property taxes at a minimum. Each member appoints an official to represent their respective College for the purpose of creating a governing body from which officers for the Pool are elected.

Note 11: Risk Management (Cont'd)

As a member of the Pool, the College could be subject to supplemental assessments in the event of deficiencies. If the assets of the Pool were to be exhausted, members would become responsible for their respective shares of the Pool's liabilities.

The Pool can declare and distribute dividends to members upon approval of the State of New Jersey Department of Banking and Insurance. These distributions are divided amongst the members in the same ratio as their individual assessment relates to the total assessment of the membership body. In accordance with the Governmental Accounting Standards Board, these distributions are used to reduce the amount recorded for membership expense in the year in which the distribution was declared.

The financial statements for the Fund for 2021 were not available at the time of audit. Selected summarized financial information for the Pool at December 31, 2020 and 2019 is as follows:

Note 12: Contingent Liabilities

The College is periodically involved in claims and lawsuits incidental to its operations. In the opinion of the administration and legal counsel, the ultimate resolution of these matters would not have a material adverse effect on the financial position or operations of the College.

The College participates in federal and state assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The College is potentially liable for expenses which may be disallowed pursuant to the terms of these grant programs. Management of the College is not aware of any material items of noncompliance which would result in the disallowance of grant program expenses.

Note 14: Operating Leases

The College did not have any operating leases as of June 30, 2021, or June 30, 2020.

Note 15: Restricted Net Position

There was restricted net position of \$680,844 and \$638,827 as of June 30, 2021 and June 30, 2020, respectively. The restricted net position of the College is for student group funds. The donor restricted net position of the Foundation is for temporary and permanently restricted awards.

Note 16: Related Party Transactions

During the fiscal years ended June 30, 2021 and 2020, the College recognized \$2,280,963 and \$2,258,600 in operating aid from the County of Warren.

Note 17: Unrestricted Net Position

The total Unrestricted Net Position at June 30, 2021 and 2020, was \$2,658,880 and \$151,169 respectively. The reduction in the Unrestricted Net Position exists primarily due to the net pension liability, and deferred inflows and outflows from pensions of \$4,473,120 in 2021. This does not reflect that the College is in financial hardship and is a permitted practice under Generally Accepted Accounting Principles.

General Information about the OPEB Plan

Plan Description and Benefits Provided

The College is in a “special funding situation”, as described in GASB Codification Section P50, in that OPEB contributions and expenses are legally required to be made by and are the sole responsibility of the State of New Jersey, not the College.

The State of New Jersey reports a liability as a result of its statutory requirements to pay other post-employment (health) benefits for the State Health Benefit Local Education Retired Education Plan. The State Health Benefit Local Education Retired Employees Plan is a multiple-employer defined benefit OPEB plan that is administered on a pay-as-you-go basis. Accordingly, no assets are accumulated in a qualifying trust that meets the criteria in GASB Codification Section P50. The State Health Benefits Local Education Retired Employees Plan provides medical, prescription drug, and Medicare Part B reimbursement to retirees and their covered dependents of local education employers.

The employer contributions for the participating local education employers are legally required to be funded by the State of New Jersey in accordance with N.J.S.A. 52:14-17.32f. According to N.J.S.A. 52:14-17.32f, the State provides employer-paid coverage to employees who retire from a board of education or county college with 25 years or more of service credit in, or retires on a disability pension from, one or more of the following plans: the Teachers’ Pension and Annuity Fund (TPAF), the Public Employees’ Retirement System (PERS), the Police and Firemen Retirement System (PFRS), or the Alternate Benefit Program (ABP). Pursuant to Chapter 78, P.L. 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 years or more of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree’s annual retirement benefit and level of coverage.

The total nonemployer OPEB liability does not include certain other postemployment benefit obligations that are provided by the local education employers. The reporting of these benefits is the responsibility of the individual education employers.

For additional information about the State Health Benefit Local Education Retired Education Plan, please refer to the Division’s annual financial statements can be found at <https://www.state.nj.us/treasury/pensions/gasb-notices-opeb.shtml>.

General Information about the OPEB Plan

Employees Covered by Benefit Terms

At June 30, 2019, the plan membership consisted of the following:

Inactive Plan Members or Beneficiaries Currently Receiving Benefit Payments	149,304
Active Plan Members	216,804
Total	<u>366,108</u>

Total Nonemployer OPEB Liability

The total nonemployer OPEB liability as of June 30, 2020 was determined by an actuarial valuation as of June 30, 2019, which was rolled forward to June 30, 2020.

Actuarial Assumptions and Other Inputs

The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement.

Inflation Rate	2.50%	
	<u>TPAF/ABP</u>	<u>PERS</u>
Salary Increases:		
Through 2026	1.55 - 4.45% based on service years	2.00 - 6.00% based on service years
Thereafter	1.55 - 4.45% based on service years	3.00 - 7.00% based on service years

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of actuarial experience studies for the periods July 1, 2015 - June 30, 2018 and July 1, 2014 - June 30, 2018 for ABP and PERS, respectively.

Mortality Rates

Pre-retirement mortality rates were based on the Pub-2010 Healthy “Teachers” (TPAF/ABP) and “General” (PERS) classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2020. Post-retirement mortality rates were based on the Pub-2010 “General” classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2020. Disability mortality was based on the Pub-2010 “General” classification headcount-weighted disabled mortality table with fully generational mortality improvement projections from the central year using Scale MP-2020.

Health Care Trend Assumptions

For pre-Medicare medical benefits, the trend rate is initially 5.6% and decreases to a 4.5% long term trend rate after seven years. For post-65 medical benefits, the actual fully-insured Medicare Advantage trend rate for fiscal years 2021 through 2022 are reflected. The assumed post-65 medical trend rate is 4.5% for all future years. For prescription drug benefits, the initial trend rate is 7.0% and decreases to a 4.5% long term rate after seven years. For the Medicare Part B reimbursement, the trend rate is 5.0%.

Discount Rate

The discount rate for June 30, 2020 was 2.21%. This represents the municipal bond rate as chosen by the State of New Jersey Division of Pensions and Benefits. The source is the Bond Buyer Go 20-Bond Municipal bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the fiscal year ended June 30, 2021 the College recognized OPEB expense of \$915,269 as determined by the State of New Jersey Division of Pensions and Benefits. This expense and the related offsetting revenue are for benefits provided by the State through a defined benefit OPEB plan that meets the criteria in GASB Codification Section P50, in which there is a special funding situation.

In accordance with GASB Codification Section P50, as the College's proportionate share of the OPEB liability is \$-0-, there is no recognition of the allocation of the proportionate share of the deferred inflows and outflows of resources. At June 30, 2020 the State had deferred outflows of resources and deferred inflows of resources related to OPEB associated with the College from the following sources:

	Deferral Year	Period in Years	Deferred Outflows of Resources	Deferred Inflows of Resources

Note 19: Subsequent Event

The COVID-19 outbreak in the United States and specifically in New Jersey has caused disruption of the College's normal financial operations. Though the impact on the College's operations cannot be reasonably estimated at this date, it is likely that there will be an impact on certain revenue in the Operating Funds other than state aid and the tax levy. Also, there have been additional operating expenses in the Operating Funds not planned for or expected at the time of the adoption of the College's 2021-22 budget related to COVID-19.

Additionally, the College's cash flow in the Operating Funds may be affected by the timing of the collection of the College's contribution from the County as well as certain State aid payments.

Warren County Community College
Washington, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and the audit requirements prescribed by the Office of Management and Budget, Department of the Treasury, State of New Jersey (the "Department"), the financial statements of the Warren County Community College, in the County of Warren (the "College") as of, and for the fiscal years ended June 30, 2021 and 2020, and the related notes to the financial statements, which collectively comprise the College's basic financial statements, and have issued our report thereon dated January 21, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the College's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we do not express an opinion on the effectiveness of the College's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the College's financial statements will not be prevented or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The Honorable Chairman and
Members of the Board of Trustees
Warren County Community College

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the College's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the College's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Compliance For Each Major Federal and State Program:
Report on Internal Control Over Compliance

Independent Auditors' Report

The Honorable Chairman and
Members of the Board of Trustees
Warren County Community College
Washington, New Jersey

Report on Compliance for Each Major Federal and State Program

We have audited the Warren County Community College (the "College's") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and the *New Jersey State Aid/Grant Compliance Supplement* that could have a direct and material effect on each of the College's major federal and state programs for the fiscal year ended June 30, 2021. The College's major federal and state programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal and state statutes, regulations, and the terms and conditions its federal and state awards applicable to its federal and state programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the College's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance") and New Jersey's OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid*. Those standards, the Uniform Guidance and New Jersey's OMB Circular 15-08 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the College's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the College's compliance.

The Honorable Chairman and
Members of the Board of Trustees
Warren County Community College
Page 2

Opinion on Each Major Federal and State Program

In our opinion, the College complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the fiscal year ended June 30, 2021.

Report on Internal Control Over Compliance

Management of the College is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the College's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and NJOMB 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the College's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance or NJOMB 15-08. Accordingly, this report is not suitable for any other purpose.

WARREN COUNTY COMMUNITY COLLEGE
NOTES TO THE SCHEDULES OF EXPENDITURES OF FEDERAL AND STATE AWARDS
FISCAL YEAR ENDED JUNE 30, 2021

Note 1: Basis of Presentation

The accompanying schedules of expenditures of federal and state awards present the activity of federal and state award programs of the Warren County Community College (the "College") under programs of the federal and state governments for the fiscal year ended June 30, 2021. The information in these schedules is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance") and New Jersey's OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Because the schedules present only a selected portion of the operations of the College, they are not intended to and do not present the financial position, changes in net position or cash flows of the College.

Note 2: Summary of Significant Accounting Policies:

Expenditures reported on the accompanying schedules of expenditures of federal and state awards are reported on the accrual basis of accounting. This basis of accounting is described in Note 1 to the College's basic financial statements. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowed or are limited as to reimbursement. Negative amounts, if any, shown on the Schedules represents adjustments or credits made in the normal course of business to amounts reports as expenditures in prior years.

Note 3: Indirect Cost Rate

The College has not elected to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

Note 4: Relationship to Basic Financial Statements

There is an adjustment needed to reconcile the Schedule of Expenditures of Federal and State Awards to the basic financial statements. The adjustment for federal awards is \$1,018,316 and the adjustment for state awards is (\$2,046,660). The adjustment is necessary because the College must reflect the entire drawdown amounts on the Schedules of Expenditures of Federal and State Awards. In the basic financial statements, the College is only reflecting the revenue and expenses pertaining to the College and is not accounting for awards that pass through the College and are refunded to the students.

Note 5: Relationship to Federal and State Financial Reports

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.
