

# Student Usernames & Passwords

## Campus Computers, Email, Library Databases, and Office 365

Every student has an assigned WCCC email which is used to log into the computers on campus, WCCC email, the library databases, and Microsoft 365.

**WCCC Email: first initial last name and the number 1@warren.edu**

Example: Philip Howard's username would be phoward1@warren.edu

**Password:** Your default password is the first two letters of your first name (first letter uppercase, second letter lowercase) followed by your birth month (2 digits), your birthday (also 2 digits), the last 4 digits of your Social Security number, and an exclamation point.

Example: For Philip Howard, born on January 1st, with the last 4 digits of his SSN being 5555, Phillip's default password would be Ph01015555!

**If you are having issues with any of these accounts, you should contact our IT support team at support@warren.edu.**

**You may also go directly to the IT office which is room 229**

### WiFi

**Network: Warren County Community College**  
**Password: collegeisfun**
