CERTIFIED PHARMACY TECHNICIAN (NATIONAL CERTIFICATION W/ PTCB)

The need for Pharmacy Technicians continues to grow, with demand expected to increase substantially through 2024. Technicians work under the supervision of a registered pharmacist in hospitals, home infusion pharmacies, community pharmacies, and other healthcare settings. This high demand for pharmacy technicians results from many factors, including the constant availability of new drugs, the national shortage of registered pharmacists, the establishment of certified pharmacy technicians, and the aging population. This program will prepare students to enter the pharmacy field and to pursue national certification via exam with the Pharmacy Technician Certification Board (PTCB). **Prerequisite**: Students should have or be pursuing a high school diploma or GED.

This course covers the following key areas and topics:

- Pharmacy calculations
- Medical terminology specific to the pharmacy
- Skills to read and interpret prescriptions
- Review of the top 200 drugs
- Skills to identify drugs by generic and brand names
- Dosage calculations, I.V. flow rates, drug compounding, and dose conversions
- Dispensing of prescriptions, inventory control, and billing and reimbursement

Fiber Optics Career Courses

Sanctioned by the Fiber Optic Association (FOA), the world's largest professional society of fiber optics.

Provided in partnership with BDI Datalynk.

Registration is encouraged one week before the start date of each course.

CERTIFIED FIBER OPTICS TECHNICIAN (CFOT)

This comprehensive 3-day introductory course in fiber optics is designed for those aspiring to become Certified Fiber Optic Technicians. The training integrates theoretical knowledge with 85% hands-on activities – students are able to use and practice with field equipment in class through hands-on skills labs. Participants will also be introduced to current industry standards for FTTD (Fiber-To-The-Desk), FTTH (Fiber-To-The-Home), and Distribution Cabling. The course covers fiber type identification, connector recognition, installation, termination, splicing, and proper testing of installed fiber cables in accordance with current standards. Our goal is to equip students to pass the Fiber Optics Association (FOA) Certified Fiber Optic Technician (CFOT) exam, which is administered and graded on the final day.

CFOT is a prerequisite for all other BDI DataLynk courses. To successfully pass this course, the student must pass both the written and hands-on exams (meaning 70% of the questions must be answered correctly). All exams are closed-book. Tuition includes all books/study materials, exam fees, and three-year membership to the FOA.
Prerequisites: **Basic knowledge of computers; ability to speak and understand English.**

DISCOUNT POLICY
Students eligible to attend classes tuition-free are permitted to register for Continuing Education courses one day prior to the start date, on a space-available basis, with tuition-paying students constituting the minimum number to run the course. Senior citizens (60 and older) may be eligible for this discount. All course fees must be paid at the time of registration. Students are responsible for purchasing required textbooks. Third-party vendor programs do not qualify for discounts.

Continuing Education reserves the right to cancel classes due to inclement weather, when enrollment requirements are not achieved, or when other college functions take priority. Students will be notified by phone or by email. Tuition and fees are refunded in full when the course is cancelled by WCCC, and no fees are incurred by the student.

Registration is complete upon payment.
