BIO 150 Principles of Human Biology

Course Master Syllabus

Course Information

Catalog Description: This course provides an introduction to the study of the structure and functions of the human body and is designed to help students develop an appreciation for the body as it relates to health and disease, and to emphasize the body as it relates to everyday living experiences. It is recommended for non-science majors as part of a sequence with BIO 145 – Principles of Biology. This course may also be taken as an elective to prepare students to take BIO 262 – Anatomy & Physiology I. The course may be taken as a hybrid with on-campus lab or as traditional on-campus course with lab.

Prerequisite(s): ENG 140 – English Composition I

Corequisite(s):

Credits: 4

Hours: 3 lecture and 3 lab

Required Text(s):

- MindTap Biology for Starr/McMillan's *Human Biology*, 11th edition
- eBook: *Laboratory Manual for Non-Majors Biology*

Supplemental Materials:

Program Goals

1. Apply the scientific method in experimentation and data analysis.

2. Analyze complex scientific problems, perform calculations, and evaluate solutions.
3. Communicate scientific information clearly through both oral and written communication.
4. Critically analyze problems through gathering data from multiple sources and apply findings to new scenarios.
5. Describe fundamental biological, chemical, and physical principles, including, but not limited to, molecular and cellular functions, anatomy and physiological function, inheritance, and both organic and inorganic chemical reactions.
6. Interpret results from experimentation that utilizes modern laboratory techniques and instrumentation.

Class Core Competencies

The following core competencies are embedded in this curriculum:

- Communicate effectively in both speech and writing.
- Apply appropriate mathematical and statistical concepts and operations to interpret data to solve problems.
- Use scientific method of inquiry, through the acquisition of scientific knowledge.
- Use computer systems or other appropriate forms of technology to achieve educational and personal goals.
- Understand ethical issues and situations.
- Address an information need by locating, evaluating, and effectively using information.

Class Learning Assessment

Student Learning Outcomes	Suggested Means of Assessment
Demonstrate a basic overall knowledge of the human body	Quizzes, laboratory exercises
Correlate body structure to function	Laboratory exercises, quizzes
Utilize basic laboratory equipment and techniques properly and safely	Quizzes, laboratory exercises
Demonstrate collaborative learning	Group presentation, laboratory exercises

Student Learning Outcomes	Suggested Means of Assessment
Demonstrate effective written and oral communication	Presentations and PowerPoint development, presentation outline, reference list development, online discussion

Grading System

Letter Grade	Percentage Range
A	90 to 100 percent
B Plus (B+)	87 to 89.9 percent
B	80 to 86.9 percent
C Plus (C+)	77 to 79.9 percent
C	70 to 76.9 percent
D	60 to 69.9 percent
F	Below 60 percent

Statement and Policy on Cheating, Plagiarism, and Academic Conduct
Academic Conduct Policy (Policy 304) [PDF]

Students are required to perform all the work specified by the instructor and are responsible for the content and integrity of all academic work submitted. A violation of academic integrity will occur if a student: (1) knowingly represents work of others as one's own, (2) uses or obtains unauthorized assistance in any academic work, (3) gives fraudulent assistance to another student, or (4) furnishes false information or other misuse of college documents.

Unauthorized use of Artificial Intelligence (AI) is prohibited unless the instructor explicitly permits it in the syllabus or assignments. If tools such as ChatGPT are permitted by an instructor to be used for an assignment, they should be used with caution and with proper citation. In all such cases, you may only use the specific tools identified as acceptable and you must adhere to the College's standards for attribution, validation, and transparency.

In cases of suspected violation of academic integrity, the incident is to be reported to the Office of Academics. A student found guilty of violating the rule of academic integrity by the Vice President of Academics will be considered to have failed in personal obligation to the College; such failure will be subject to disciplinary action by the College. Unless otherwise notified, the instructor will allow students who are pending disciplinary action to attend class.

Citation Styles and Formatting

Work submitted for any Warren County Community College course must conform to the required formatting and citation style that are specified by the instructor. The Library and Instructional Support Center can assist students with formatting and citations for assignments and papers.

WCCC Attendance Expectations

The College expects students to attend and participate in all classes. This involves sharing discussions and lectures in class, as well as interacting with other students. Grades are based on the quality of work students complete in meeting the requirements for a particular course, as stated in the course syllabus and catalog description. Attendance, among other factors, may be an additional criterion for assigning grades. Students should realize that they are responsible for all class meetings and that work missed because of absences may affect their grades. Attendance in online classes is determined by the completion of assignments/ tests. Students who have not completed any assignments or tests will be considered non-attending and receive an NF grade in online classes.
